Prattley
DATAMARS

10’ Standard Alloy Sheep Yard 13” Wheels with Single lane, 2 section handling race

- Prattley’s mobile sheep yards can be easily transported, assembled and operated by one person.
- The mobile sheep yard is versatile and can be taken anywhere on the farm for on-the-spot drenching, crutching, mouthing, tagging, docking and fly strike and any general animal treatment.
- The mobile unit allows the operator to utilise the direction of sunlight and wind to ensure a natural stock flow through the yard. This gives practical results such as faster animal flow, saved time and travel, reduced fuel and labour costs, lower risk of infection from dusty tracks, less stress on the animal etc, therefore maximising farm management.

10’ Standard Mobile Alloy Sheep Yard		Qty
