2-Way and 3-Way Electric AutoDrafter

The Prattley Electric AutoDrafter

- is operated by electric motors powered by a 12volt battery
- will operate on a fully charged battery for a full day
- design eliminates the need to have left and right handed crates
- rear gates have vertical rollers which allow the gates to roll around the sheep as they close or allow the following sheep to pull back without getting caught.

Drafting Options

Full Auto Drafting Mode

- Indicator is programmed for 2-Way or 3-Way drafting.
- Sheep enter weigh crate
- Back gates automatically shut upon weight on platform of drafter
- Indicator will select which gate to open once sheep has exited crate.
- Back gate opens automatically again for next sheep.

**While in this mode you can override drafter with remote.*

Auto Drafting By Remote

- Indicator is programmed for 2-Way or 3-Way drafting.
- Open back gate with remote
- Shut back gate with remote once sheep has entered crate
- Indicator will select which gate to open once sheep has exited crate
- Use remote to open back gate again.

** While in this mode you can override drafter with remote, by shutting back gate with hold button you can then override direction.*
